2021 TENCENT CLOUD SERVICE AGREEMENT

The Board is pleased to announce that, on 21 July 2021, the Company had agreed to renew the continuing connected transaction under the 2019 Tencent Cloud Service Agreement that will expire on 24 July 2021. The 2021 Tencent Cloud Service Agreement is for a term of one year commencing from 25 July 2021 and ending on 24 July 2022.

Details of the 2021 Tencent Cloud Service Agreement are as follows:

Date:	25 July 2021
Parties:	(1) Guangzhou Baitian; and (2) Tencent Cloud
Term:	One year commencing from 25 July 2021 and ending on 24 July 2022.
Subject Matter:	Guangzhou Baitian purchases and uses certain cloud services provided by Tencent Cloud, including system services composed of various products and services such as computing and network, storage and content delivery network, cloud database, cloud security, monitoring and management, domain name service, mobile and communication, video service, big data and artificial intelligence.
Pricing Policy and Payment Terms:	The service fee payable to Tencent Cloud by its customers for each service provided is denominated in RMB and calculated according to the standard service charges published on the official website of Tencent Cloud (www.qcloud.com) (the “ Published Rates ”). We will negotiate a discount of approximately between 15% and 40% to the Published Rates per each service provided. Such discount shall be determined based on the type of service and the size of service fee we will pay to Tencent Cloud for such service, which shall be agreed in separate underlying orders.

The service fee may be settled by way of upfront pre-payment or subsequent settlement. For service that adopts the upfront pre-payment method, Guangzhou Baitian shall top up and maintain its online account with Tencent Cloud with sufficient value to pay for the selected service to be provided by Tencent Cloud; for service that adopts the subsequent settlement method, Guangzhou Baitian shall pay the service fee within the specified time period stipulated by the relevant service rules applicable to such selected service provided by Tencent Cloud.

Guangzhou Baitian may settle the service fee online via its online account with Tencent Cloud, or offline to the designated bank account of Tencent Cloud via bank remittance.

The aggregate amount paid by Guangzhou Baitian pursuant to the 2019 Tencent Cloud Service Agreement was approximately RMB7,200,000 for the period of 25 July 2020 to 24 July 2021.

The proposed Annual Cap for the period from 25 July 2021 to 24 July 2022 is RMB15,000,000. The Annual Cap had been determined principally with reference to:

- (i) the historical transaction amounts for relevant services provided by the other independent parties to the Group in the past;
- (ii) the amount paid under the 2019 Tencent Cloud Service Agreement; and
- (iii) the expected cloud services requirement of the Group in respect of the launch of new games that will use the cloud services provided by Tencent Cloud during the period of 25 July 2021 to 24 July 2022.

To the best of the Directors' knowledge, information and belief and having made all reasonable enquiries, the Annual Cap was arrived at after arm's length negotiations between the parties.
